

Produced under the Camelot Brand
For Solus Garden & Leisure B62 OEW

* Select Ideal Location :First check all parts are present then Set them all out on a clear level surface prior to assembly

* Take Care during assembly , especially when lifting heavy or large parts.

* Never leave the awning in an open position when not in use

* This gazebo was designed as a temporary shelter only

During Bad weather i.e Severe rain, High winds or in the winter months the roof canopy should be removed
The Gazebo can be left out during the summer months - but please be aware of any bad weather and secure or remove your canopy

There are small eyelets in your roof designed to disperse water - as an extra precaution check your gazebo roof periodically and remove any access water build up.

To prolong the life of your gazebo always dismantle during the winter.
